SecESafe

Intelligent Bluetooth KeySafe

The SecESafe SEKS1 is a large IP66 rated metal Key Safe. It can be operated via Bluetooth using the TTLock iOS/Android app without the need for Internet.

Specific codes can be sent via SMS or E-Mail. These codes can be temporary (1 day) or permanent. Bluetooth access (one-time, temporary, or permanent) can also be shared by SMS or E-Mail. A full audit trail is accessible from the app.

The keysafe has multiple mounting options, including wall mount, an automotive bracket, & two different shackle types (Standard, & Doorknob mount).

It is large enough to fit debit card sized smart cards, and multiple keyrings with keys & fobs.

Wireless Gateway allows remote programming & opening of the keysafe.

(Sold Separately)

It is suited for

- Homes
- Offices
